About the DECALIA group:

Established in Geneva in 2014, DECALIA SA is a private and institutional investment management company. With more than 50 employees and assets under management that stand at CHF 4.9 billion, DECALIA has expanded rapidly, in particular thanks to its active-management experience built up over the last 30 years by its founders. The strategies developed by DECALIA, which are, for the most part, available in UCITS format, focus on four investment themes deemed promising in the long term: disintermediation of the banking sector, the search for yield, long-term trends and market inefficiencies.

Geared to practical solutions, DECALIA is devoted entirely to generating a higher risk-adjusted performance for its clients, while ensuring the highest level of service. The fundamental values that shape its DNA and underpin its actions are dedication, innovation and team spirit. Its investment philosophy is based on several fundamental principles: stringent risk management, capital preservation, an active management style and selection of the best talent.

DECALIA is regulated by FINMA through a collective investment manager's licence (LPCC). In addition to its Geneva headquarters, DECALIA has offices in Zurich and Milan through DECALIA Asset Management SIM SpA.
